Insurance

We work with many insurance companies as an out-of-network provider. If you would like to find out more about using your insurance, please call or email for more information. We also accept cash payments.

Our fully licensed and certified Mental Health Residential Treatment Center (RTC) is a beautiful, professionally decorated six-bed coed home in a lovely neighborhood in Pasadena. We provide 24-hour live-in care, supervision, and treatment of clients who have a primary psychiatric diagnosis.

The mission of our RTC program is to create a comfortable, stable, supportive home-like therapeutic environment. Our team supports you as you acquire and apply skills of independent living and cope with an active episode of a serious mental disorder.

We use an evidence-based approach in which you receive over 20 hours a week of group, individual, and family therapy from members of our doctoral-level Professional Staff. You receive an additional weekly medication management session with our Medical Director, a board-certified psychiatrist.

Substance abuse is a common complication of primary mental illness. We address secondary drug and alcohol problems with our abstinence-based non-12 Step psychotherapy treatment model.
